

Primary Worksheets: Halloween

Halloween is a holiday that happens on the 31st of October every year. It is for many a time for dressing up, carving pumpkins, and getting candy.

We celebrate Halloween because of an ancient festival of Samhain. It is believed that on this day, we were able to connect with the dead.

Even in the old days, they dressed up in costume to disguise themselves as ghosts and made lanterns out of hollowing trees.

Primary Worksheets: Halloween

Many children dress up to go 'trick or treating'. They would go up to a door, knock or ring the doorbell and say, 'trick or treat'.

Whoever comes at the door gives candy to them. This started in the United States in the mid-1900s.

In the old times, children would dress up as saints and recite songs or verses door to door. They would ask for soul cakes, something that is similar to a biscuit.

Primary Worksheets: Halloween

There are many different kinds of activities during Halloween. Bobbing for apples became a popular activity which involves using only your mouth to pick up an apple from a container full of water.

Another activity that is commonly played is the hanging donut game. Donuts are tied to a piece of ribbon and hanged slightly above mouth level. Each player has to eat the whole donut with no hands allowed.

Primary Worksheets: Halloween

Answer the questions.

What is Halloween?

Why do we celebrate Halloween?

What do we do on Halloween?

Primary Worksheets: Halloween

Answer the questions.

Name and describe two activities.

What do you like to dress up as for Halloween?
